

BASE ASSEMBLED VIEW

THE MILL, MORETON BAY

2.3.4 Base

The Base of the SMART.NODE™ serves three main purposes. The Lower Hatch hosts the Electrical and Communications Infrastructure of the SMART.NODE™, while the Middle and Top Hatches accommodate 4G/5G small cell technology. Finally, the Base also provides a number of services, including:

- Audio Bridge
- GPO Power Socket
- USB Charging
- Wireless (Qi) Charging
- Optical Fibre Outlet
- Ethernet (Data) Outlet
- HDMI Screen Outlet
- LoRaWAN
- Sigfox
- Power Line Communication (PLC)
- Flood Detection
- EV Charging (Low, Medium & High Capacity)
- Help Assist Button
- Visual Display Screens (46in, 55in, 75in & 85in)
