

City of Canada Bay Council - Bay Run & EVC Network

ENE.HUB has installed 10 SMART.NODEs™ along the Bay Run in Canada Bay Council as part of Stage 1 of the Council's Connected Smart City Network. ENE.HUB has also designed and planned Stage 2 with another 10 SMART.NODEs™, all equipped with Electric Vehicle Charging (EVC) Modules and will commence the construction and commissioning phase shortly. With a total of 20 connected SMART.NODEs™, the City of Canada Bay Council will be one of the first fully connected Councils that can offer EVC to its community.

PRODUCTS

Contract Term: 15 Years
Construction Phase 1: Completed in November 2016
