

City of Greater Geelong

The City of Greater Geelong has been successful in the first round of the federal ‘Smart Cities and Suburbs Program’ and has partnered up with ENE.HUB to deliver a Smart City project along the foreshore of Geelong. ENE.HUB planned, installed, managed and maintained a network of 8 SMART.NODEs™ along the Geelong waterfront. ENE.HUB was also recently awarded the contract for the delivery of Free Public Wi-Fi and Enhanced Broadband Services for the City of Greater Geelong.
