

BLACKTOWN, SYDNEY

SMART STREET/PEDESTRIAN LIGHTING, SIDE VIEW

## Smart Street Lighting

ENERGY

High-quality lighting is essential for road safety, personal safety and the visual aesthetic of an urban setting. Smart Street Lighting is specifically designed to light roadways and is installed as a LED unit separate to the Beacon.

LED lights ensure the highest savings per watt, and by combining energy efficiency with high performance, the Smart Street Lighting SCS can be used to create visual spaces that benefit communities, increase safety, and boost tourism.

**ENE.HUB**

THE TECHNOLOGY ACCOMMODATED BY THE SMART.NODE™ IS CONTINUOUSLY EVOLVING. ENE.HUB CAN INVESTIGATE THE ACCOMMODATION OF ADDITIONAL SCS DEVICES.
