## Smart Lighting

ENERGY

High-quality lighting is essential for road safety, personal safety and the visual aesthetic of an urban setting. Smart Street Lighting is specifically designed to light roadways and is installed as a LED unit separate to the Beacon.

LED lights ensure the highest savings per watt, and by combining energy efficiency with high performance, the Smart Street Lighting DS can be used to create visual spaces that benefit communities, increase safety, and boost tourism.

Outreach based Roadway lighting is also a supported Digital Service. Intellilight lighting controllers supporting NEMA or Zhaga connectivity can be controlled via the e3 Platform.

### Product Options

- Intellilight LoRaWAN Smart Lighting Controller (NEMA)
- Intellilight LoRaWAN Smart Lighting Controller (Zhaga)
- Vossloh Smart Lighting Controller - Dali (IPC HDPLC)
- MTM Street/Pedestrian Light - Single
- MTM Street/Pedestrian Light - Dual

ENE-LIT-CON-67-001A

ENE-LIT-CON-67-002A

ENE-LIT-CON-67-003A

ENE-LIT-LUM-00-006A

ENE-LIT-LUM-00-001A

### Product Dependencies

- SN Accessory for Vossloh Smart Lighting Controller - Dali (IPC HDPLC)

ENE-LIT-CON-67-003A-SN

*For the MTM Street/Pedestrian Light - Single & Dual:*

- Power supply/Driver (Meanwell ELG-75-c1400DA-HUB)

ENE-PWR-000-67-001A

- SN Accessory for Power supply/Driver (Meanwell ELG-75-c1400DA-HUB)

ENE-PWR-000-67-001A-SN
