SAFETY

The SMART.NODE™ can readily integrate fixed CCTV domes for outdoor use. The current models offer HDTV 1080p video, varifocal lens with remote zoom and focus, and eliminate the need for hands-on fine tuning.

The CCTV Digital Service allows for the installation of a wider range and variety of cameras. It is a flush mounted device housed internally in the SMART.NODE™ and has the added feature of a sun and bird visor to minimise camera distortion.

Existing CCTV units adapt to scenes with strong variations in light, produce sharp images of moving objects and have two-way audio with analytics. New technologies see reduced bandwidth and CCTV storage requirements. Note: this is not a VMS.

Product Options

- CCTV Panasonic Fixed In Pole (WV-S2550L)
- CCTV Panasonic 360 Degree Arm Mount (WV-S8530N)
- CCTV Axis Dome Camera In Pole (P3265-LVE - P32 Series)
- CCTV Axis Fixed Bullet LPR camera Arm Mount (Axis Q1700-LE)
- CCTV Bosch Flexidome IP Starlight Dome Camera In Pole (8000I NDE-8502-R)

- SFT-CAM-PAN-67-001A
- SFT-CAM-PAN-67-003A
- SFT-CAM-AXS-67-001A
- SFT-CAM-AXS-67-002A
- SFT-CAM-BCH-67-001A
